WILLIMANTIC, CT — Want to see how Eastern Connecticut State University opened its new Fine Arts Instructional Center on its main campus? Then check out a time-lapse video, courtesy of the contractor.

Barr & Barr was tasked with building the 118,000-square-foot facility, and chose [Work Zone Cam](#) to document the construction. Ground was broken in December of 2013, and the project concluded in November of 2015. Watch the latest addition to the campus come to life in 80 seconds with this professional time-lapse movie produced by Work Zone Cam.

The new building serves students in the art & art history, music, and theatre programs. The new facility includes a 400 seat auditorium, a 250 seat theatre, art gallery space, instructional classrooms, and performance spaces. Students will also have access to state-of-the-art computer labs and design studios to stay current with the modern professional art environment.
